Body Cavity Foldable

Due Tuesday/Wednesday 1/17 1/18

Materials

- 1. Plain white sheet of paper
- 2. Chapter 9 notes
- 3. crayons/colored pencils/markers

Making the Foldable

Fold the paper in half hot dog style.

Then fold the paper in thirds so you have **three** sections.

Cut one half of the paper along the fold lines creating three flaps.

Outside Flaps: Type of Body Cavity (acoelomate, pseudocoelomate, coelomate)

Inside top: Definition, Example organisms

Inside bottom: labeled & colored diagram (use diagram on page 187 in your text or slide 24 of your notes.
